Work history

02/2019–

SOFTWARE DESIGNER, SOLITA

Developing various web applications with reach modern UI and extensive powerful backend, cloud integrations, DevOps pipelines, customizing Episerver CMS for customer needs.

11/2009–01/2019

LEADING WEB DEVELOPER, JSC "ARCADIA INC.

Tight communication with the product owner, other devs and team leads; developing new features and plugins for the platform, redesigning existing and new plugins, developing microservices, integrating with 3rd party services, creating windows services for resource extensive operations; release management, release process without downtime.

05/2005–10/2009

SENIOR WEB DEVELOPER, ILEARNSOFT LTD

Developing ASP.NET web applications, developing custom CMS.

Education

2005	**ENGINEER, SAINT-PETERSBURG STATE TECHNOLOGICAL INSTITUTE (TECHNICAL UNIVERSITY)**
	Computer aided design and control

Certificates

05/2019–05/2021	**MICROSOFT CERTIFIED: AZURE DEVELOPER ASSOCIATE, MICROSOFT**
	AZ-203
04/2019–04/2021	**EPISERVER CMS 11, EPISERVER**
01/2011–12/2012	**MICROSOFT CERTIFIED PROFESSIONAL DEVELOPER (MCPD), MICROSOFT**

Projects

02/2020–	**ENSTO.COM , ENSTO OY**

Continious development of the webshop and e-commerce.
Challenges: Big project with huge set of various technolgies, a lot of things done by different developers who are not on the project anymore, lots of integrations with external systems.
Role: Main developer
Technologies: .Net 4.7.1 and .Net Core 2.2, Entity Framework 6 and Core, Azure App Services, Azure storage accounts, Azure App Insights, Episerver CMS and Episerver Commerce, AngularJS, Vue, Gulp, C#, F#, xUnit, Specflow, Elastic search, MS SQL DB, Jenkins, Octopus deploy,

12/2019–01/2020	**MEPCO API, INTEGRATA**

Created API for 3rd party developers allowing access data from an existing set of on-premise databases.
Challenges: Hybrid solution where APIs are in the cloud and databases are on-premise; rich business logic developed in Azure API Management via policies, group assignments, subscriptions and products; several APIs and role-based authorization policies.
Role: Main developer
Technologies: .NET Core 3.0, Web API, Entity Framework Core, Azure API Management, Swagger, Hybrid Connection, JWT, OpenID Connect to Azure AD, Azure DevOps, Azure App Service, Azure App Insights.

08/2019–11/2019	**MIRKA EPISERVER HEADLESS, MIRKA**

The first project in Solita with the use of Episerver as a headless CMS.
Challenges: Custom API for the content delivery in headless mode, implemented custom authentication flow, implemented sub-sites filtering to help customer to save costs on licensing, elastic search integration.
Role: Main developer.
Technologies: ASP.NET, MVC, Web API, ElasticSearch, Episerver, Swagger, Azure DevOps, Azure App services, Azure App Insights.

04/2019–08/2019	**TEBOIL.FI PALVELUTUKI, TEBOIL**

A typical Episerver based website with the on-premises hosting.
Challenges: The main effort was in upgrading Episerver CMS from 7 to 11. A lot of parts became obsolete or not supported. Successfully migrated custom properties data, customized editor UI experience, did frontend face-lifting for end-users.
Role: Developer.
Technologies: ASP.NET, MVC, Web API, Episerver, EpiFind, Webpack, jQuery, Google maps

11/2014–01/2019	**ONLINE LEARNING PLATFORM, ONE OF THE WORLD'S LEADING LEARN-ING PLATFORM PROVIDERS**

Online learning platform with more than 7 million active users worldwide. The platform was used in different levels of education, from primary schools to universities, helping teachers make education more inspiring and valuable for the students.
Challenges: Improving performance to match the growing number of users, integration with various external systems, constant modern UI improvements, support for all major browsers and mobile devices, accessibility compliance, multilanguage support, zero-downtime releases.
Role: Leading developer.
Technologies: ASP.NET, MVC, Web API, WCF, jQuery, TypeScript, Svelte, LESS, MySQL, GitLab + CI, Microservices architecture, G-Suite, Office365, CloudConvert, AWS EC2, AWS ECS

Skills

ASP.NET	Excellent	15 years
Databases & SQL	Good	15 years
Javascript / TypeScript	Good	13 years
.NET C#	Excellent	15 years
NHibernate	Good	3 years
Entity Framework	Good	5 years
ASP.NET Web API	Excellent	9 years
ASP.NET MVC	Excellent	9 years

Skill	Level	Experience
CI/CD	Good	10 years
Amazon Web Services (AWS)	Moderate	4 years
ASP.NET Core	Moderate	3 years
Git/Subversion/Gitlab/Jira	Good	11 years
Unit testing	Excellent	11 years
Azure	Moderate	3 years
MySQL / MariaDB	Good	5 years
MSSQL	Good	11 years
Vue.js	Basics	2 years
Angular JS	Basics	2 years
Webpack	Moderate	1 year
ElasticSearch	Good	3 years
F#	Basics	1 year

Industry knowledge

Area	Level	Experience
Online education platforms	Good	12 years
.Net web software development	Excellent	15 years
